COMMERCIAL INTELLIGENCE.

TUESDAY EVENING, FEB. 17, 1880.

CONSOLS in London yesterday advanced from 96 to 98¼, but French Rentes were unchanged at 115½, and Enfaced Rupee Paper at 78¼ for Fours and 85 for Fours-and-a-half.

In the General Produce markets no movement of any kind is reported. Seeds are all unchanged, but in Indian Wheat, to arrive, a decline of 1s. per quarter is quoted, via Canal, and 6d. via Cape.

Wallaroo Copper has declined £1 per ton at £81.

Piece Goods in Manchester are reported firm, but private advices say that there is less disposition to buy for the Indian markets.

Cotton in Liverpool yesterday, according to Reuter, closed quiet, sales 8,000 bales, of which 600 were Surats. Spot prices were unchanged, except for Americans, which were practically 1-16d. lower, Mid.Uplands, being quoted at 7 7-16d. as against 7¾d. for Mid. Orleans on the previous day. Reuter says nothing regarding Surats, to arrive, but private telegrams report them difficult of sale at a practical decline of 1-16d. per lb. In New York yesterday, ready Mid. Uplands receded from 13¼ to 13¼ cents, and May shipment from 13·63 to 13·65 cents. per lb. The receipts at the U. S. ports to date are as follows :—

	1880.	1879.	1878.
Two days' Receipts	23,000	33,000	30,000
Three days' do.	44,000	50,000	42,000
Total since 1st Sept.....	4,006,000	3,627,000	3,403,000

Bar Silver in London is still quoted at 52 5-16d. per oz.

EXCHANGE.—The tendency to-day has still been downwards, but there has been no quotable alteration in ready quotations, although the Banks have shown a disposition to buy forward on slightly easier terms. From Calcutta advices are not strong, but quotations there are still maintained at 1-32d. to 1-16d. over our figures. We quote :—

Bank Bills, on demand	1s. 8 3-32d.	per Rupee.
Do. 3 months' sight.	1s. 8 7-32d.	,,
Credits 3 ,, ,, ...	1s. 8 11-32d.	,,
Documents 3 ,, ,, ...	1s. 8¾d.	,,
France ,, ,, ...	2·14	,,

On Calcutta we still quote demand drafts at 1-16 per cent. premium, 60 days' sight nominal.

GOVERNMENT PAPER is naturally quiet owing to the continued downward tendency of Exchange, but holders, nevertheless, seem indisposed to make any important reduction in rates. We quote :—Fours, Rs. 93½ ; Fours-and-a-half, Rs. 101 5-16 to ¾.

SHARES, as a general rule, are quiet. In Bank of Bombay we note a decline of Rs. 2½. Land Companies are unchanged, and in Press shares the only movement is a decline of Rs. 2½ in Berars. Spinning and Weaving mill shares are firm, and in most instances Rs. 5 to Rs. 10 higher owing to the decline in Cott·n, but there are comparatively few buyers.

COTTON to-day has again been dull in the extreme, and prices are quiet, Rs. 3 per candy lower. Even at the decline there have been few buyers, and the transactions for export cannot be put at more than about 1,500 bales. Arrivals are steadily increasing, the total for the four days being 21,000 bales. Quotations are very irregular, but we should call closing prices :—

Good Omra, March .....Rs.	248 per candy.
Do. Broach ,, ,, ,,	261 ,,
Do. Dholleras, April ,,	247 ,,

SEEDS are firm at previous figures.

FREIGHTS for Liverpool by sailers are slightly firmer owing to the S. S. Yeddo having been filled up, and we now quote 32s. 6d. for ready and 35s. for March shipment. For the Mediterranean ports there is no change.

PIECE GOODS are still very firmly held by dealers owing to the limited stocks on the spot, but the quieter advices from Liverpool regarding the raw staple render buyers less disposed to operate, and clearances from the bazaar, as also from first hands, have consequently been small.

COALS are firm, but unaltered in value. There are no sellers to arrive from first hands.

THE CITY BANK, LONDON.—At the ordinary general meeting of the shareholders of the City Bank, held in London on the 20th ultimo, the following report was adopted : "The directors present to the shareholders the annexed accounts of liabilities and assets and profit and loss, for the half-year ending 31st December, 1879 ; showing that, after providing for interest on deposit accounts and for bad and doubtful debts, the gross profit, including £4,162-8-5 brought forward from the preceding six months, amounts to £67,240-13-0, to which is added £9,055-17-2, received in full of claim upon the City of Glasgow Bank. Provision being made for current expenses and rebate on bills discounted not due, the directors declare a dividend at the rate of £10 per cent. per annum, free of income tax, payable on and after the 21st instant, add £10,000 to the reserved fund, thereby increasing it to £230,000, and carry forward to the next account £3,146-1-4. As the proprietors are already aware, the meeting of shareholders after the conclusion of the general business will be declared extraordinary, for the purpose of submitting special resolutions authorising the registration of the Bank under the Companies' Acts, 1862 to 1879, as a limited company, and for increasing the nominal amount of its capital from £2,000,000 to £4,000,000. Subject to the adoption of such resolutions and to the confirmation of the same at an extraordinary general meeting to be subsequently held, the directors have decided under the powers vested in them, to offer to the shareholders, registered on the 6th January instant, at a premium of £2 per share, which premium will be added to the reserved fund, 20,000 new shares of £40 each, upon which £10 per share will be called up by instalments, as explained in detail in the circular addressed to the shareholders on the 23rd December last." The Chairman then declared the dividend for the half-year ending the 31st December last, at and after the rate of £10 per cent. per annum on the paid-up capital, free of income-tax.

THE TROOPS.

No. 13-8 R. A., under the command of Major Latham, R. A., now at Deolali, will be brought to Bombay on the 19th inst., and will be quartered in the R. A. barracks at Colaba. Strength—3 officers, 74 men, 6 women, and 18 children.

THE actual cost of the High Court buildings at Bombay amounts to Rs. 16,44,528, being Rs. 43,000 over the estimated cost.

A CORRESPONDENT states that the two firms which were foremost at the last meeting of the Cotton Trades Association in recommending that no short stapled cotton—Bellatee cotton—should be purchased, so that its production might be discouraged, have been, strangely enough, foremost in purchasing Bellatee cotton at Oomractee, and have even advanced the price one rupee in their eagerness to buy. The representative of one of the firms in question stated at the meeting, that if by chance their buyer purchased a bale of short stapled cotton, he was directed to resell it on the spot and have nothing more to do with it. This matter ought surely to receive some explanation from the firms concerned.

THE following vigorous retort to an outrageous remark at the address of the veteran Sergeant Atkinson, will be read with sympathy and respect by the bar and the public alike :—

In this morning's *Times of India* there is a letter signed "*Audi Alteram Partem*," in which my name is expressly mentioned, and in which I am described as "an old gentleman without any practice."

Now, sir, it is with very great reluctance that I enter into this unseemly controversy, but I should be wanting in self-respect if I did not tell the writer that he is a slanderer and a coward; a slanderer because if he had made the slightest inquiry he would have found that his statement was false; and a coward for doing me an irreparable injury without publicly avowing his name. It is true, indeed, that I am "without practice," as compared to either of the two leaders named, Mr. Latham and Mr. Macpherson, but if the writer will call upon me and inspect my fee-book, I will satisfy him by figures that his statement is false. I promise my friend (for I suspect him) free ingress and egress to my office; and, moreover, I promise him profound secrecy as to his name. Whether in the case of these ignorant selfish members of the bar that had no practice at the bar of England before coming here, I will leave the public to judge after reading a brief outline of my professional life. After leaving one of the best classical schools in England, I entered the University of Oxford, and after taking my degree there I became a member of the Inner Temple, and on being called to the bar I joined the Northern Circuit. My business both in Westminster Hall and on Circuit was sufficient to justify Lord Chancellor Cranworth in raising me to the degree of the coif, the highest dignity in the law, and this, too, when I had been at the bar only fourteen years! After I was made a Sergeant-at-Law I was at once put into the Commission of Assize, and I frequently, at Manchester and Liverpool especially, sat on the civil and criminal side of the court for the disposal of business. How many cases were disposed of by me I have no means of knowing, but this I do know of a certainty, that then there were but *four* civil appeals against my ruling, and one criminal, and that *all* were, on appeal, determined in my favour. Moreover, I was for a long period Deputy Recorder of Manchester, and, as such, disposed of many hundred civil cases, such as usually arise in such a town as Manchester. As far as I remember there was one appeal, and that one was also affirmed.

I am the author of :—I. "The Sheriff Law," 6th Edition; 2, "Papinian"; 3, "The worthies of Westmoreland"; and 4, "International Law." I am the editor of —1, "Park on Marine Insurance"; and 2, "Abbott on Shipping."

The Bombay Government have twice honoured me with judicial duties in the High Court.

As self is a subject upon which, as Lord Byron says, all are fluent, few agreeable, I conclude with a prayer to the public that they will not allow me to be trampled under foot by an anonymous slanderer and coward, such as I have no hesitation in describing the author of that calumny to be.

THE orders of the Government of India, published in May last, forbidding the appointment of any but natives, that is, persons born in India, of parents permanently domiciled in the country, to posts with salaries of Rs. 200 per mensem and upwards, have been made applicable to temporary as well as substantive appointments. The *Pioneer* remarks :—No objection can be made to the principle of this extension. The form of the original orders, however, is open to question. It would have been more intelligible had the Government forbidden the appointment of Europeans to posts of Rs. 200 and less, instead of Rs. 200 and more, as has been done. The employment of Europeans in the uncovenanted service may sometimes be justifiable on the ground of special requirements and special qualifications; but such cases would certainly, as a rule, be in the higher ranks. The employment of any but natives in the lower ranks is unjustifiable; and yet, strange to say, this has not been in any way interfered with. It may, of course, be argued that officers with appointments in their gift will see that a man should not be taken into a department in which all hope of promotion is cut off at a certain not very high limit; but, as a matter of fact, in this world many things which should not be done are done. Europeans come out to India needy and willing to take any appointment offered, trusting to good luck for promotion, or content not to look beyond the present day. Influence is brought to bear on heads of departments and offices, and these candidates receive appointments. After they have worked a certain number of years they would, in ordinary course, be promoted to Rs. 200 per mensem: either they will be so promoted on the ground of their previous good service, in which case the present orders are mere waste paper, or promotion will be refused them; in which case, what they at least will consider an injustice has been done which cannot but tell injuriously on the efficiency of the public service. The orders to be effective should be extended downwards as well as upwards, and the account department should take steps to see that no new appointment is made without a certificate from a responsible officer that the rule has been observed.

REGARDING the *Pioneer's* version of Russia's intriguing with Shere Ali the author of "The Week" in the *Englishman's Saturday Evening Journal* writes :—Reuter has informed us that, in reply to a question in the House of Commons, Mr. Stanhope had admitted that some correspondence had been found at Kabul between the Russian authorities and the late Amir Shere Ali, but had declined to make known its contents on the ground of inexpediency. A few hours after this news is received in India the gist of the found correspondence appears in print in a paper which is known to be supplied with information from some Government offices before the Press Commissioner. If it is correct information, of course some questions will be asked about it in the House of Commons, and it is to be hoped that amongst these will be the question as to how the information which was refused to the House leaked out in India. Evidently there is either a Mr. Marvin at the Foreign Office in Calcutta, or the Government of India has chosen to defy the Home Government and publish secrets which the higher powers wished to keep secret. If the published account is true there is a good *casus belli* against Russia at any time, for exciting a friendly power to make war upon us, going so far even as to promise that power a large slice of our territory. There is one thing regarding the published account of this correspondence which gives it a great appearance of truth. Just about the time at which it was going on, the Emperor of Russia had assured Lord Loftus that Russia considered Afghanistan beyond the pale of her interference. My readers may perhaps recollect how often I pointed out, during the late Turko-Russian war, that, as soon as the Emperor said anything would not be done, his generals at once tried their best to do it. So it is again in the case of Merv. In August last the Emperor assured Lord Dufferin that the Russian troops would not attack Merv. Now it is openly announced throughout Russia that a large expedition is being prepared for that very purpose. So it appears very evident that whenever the Holy Father of the people of Russia says anything will not be done, his officers at once understand that that is the very thing which he wishes to be done.

ON the very important question of the presence of good coal in large quantities in the neighbourhood of the Bolan Pass, the Lahore paper writes :—With reference to a paragraph which we published in our issue of the 3rd current, relating to the discovery of coal in the neighbourhood of Mach in the Bolan Pass, we are glad to understand that the attention of the Governor-General's Agent for Baluchistan has been drawn to the matter. From the records of the Geological Survey of India, No. 4 of 1874, it appears that notes were made of a visit to the country of the Luni Pathans in the south-east corner of Afghanistan by Mr. V. Ball. This gentleman's report was not altogether favourable to the idea that coal was to be found to a very great or valuable extent in the country explored, and it may be inferred that there is a sufficiency of general resemblance of geological formation in the country about the Bolan to that of the scene of Mr. Ball's explorations, to make it doubtful if the coal strata to which we drew attention about Mach are more valuable than those in the Suliman range. But Mr. Ball's report even of the country which he saw and described is anything but exhaustive, and his own account of his journey does not give us the idea of his being possessed with an overpowering zeal for discovery. He says :—"I started one evening to visit this coal, but my guide so managed matters that we never reached our destination. The following day I was dissuaded from my intention of proceeding to it in the sun, as a long ride lay before us, and it was represented to me that exposure in these hot valleys could not be undertaken without risk at this season." So that he never visited the place at all. But at another place on the western side of the Karvada range where it overhangs the open valley of Chamarlang, good coal averaging nine inches in thickness, resting on shales with strings of coal, was found. An assay of the coal gave carbon 57·8, volatile matter 38·8, ash 3·4 in 100·0 parts, showing an extremely valuable fuel. On this Mr. Ball observes : "Notwithstanding the excellent quality of the coal, a seam of only nine inches thick is probably valueless. Were the seam situated near to any line of traffic, some hundreds of tons could without doubt be extracted from near the surface at small cost. Now in the case of the neighbourhood of Mach, it may be that the seam will be found of greater thickness, and the proximity of the line of traffic would make it of enormous value. The arguments, rendering it improbable that a deposit thick enough to be worth working, enumerated by Mr. Ball do not appear to us at all conclusive, for they rest chiefly on the assumption that the discovery would have been made before now if there were grounds for it, and that the experience of those who have tried to work for coal in other parts of Sind and the Punjab has been unfavourable. But very little is known of the country about the Bolan, and we should certainly urge an examination of the strata by a competent geologist before taking for granted the somewhat hasty and superficial generalizations recorded in the abstract from which we quote.

THE mangoes of 1880 ought to be good, for the mango showers are falling in due season and very plenteously. There was a shower in Bombay on the night of Monday, and a good deal of rain fell at Tanna on Sunday night. Rain has also fallen at Matheran.

THE amount of cash held in the reserve treasury of the Government of India on the 12th of February last was Rs. 1,38,65,461·6·10.

REPORTS on the state of the season and prospects of the crops for the week ending February 10, state that rain fell in most of the districts of the North-Western Provinces, Oudh, and the Punjab, and also in Assam, doing much good to the spring crops. There was some rain also in Madras, and there were slight showers in Bengal, but more rain is wanted in both of these provinces. Agricultural prospects are said to continue generally good.

THE Probate and Administration Act, 1880, which comes into force on the 1st day of January 1881, is published in Saturday's *Gazette of India*. The preamble states that it was called into existence in order to provide for the grant of probate to wills and letters of administration to the estates of deceased persons in cases to which the Indian Succession Act, 1865, does not apply.

THE Bishop of Lahore has left Quetta *en route* for Kandahar.

THE Darjiling paper tells us that there is every indication of an early tea season in the hill portion of that district, as on the lower portions of gardens with western aspects bushes are already beginning to put out new leaves.

THE Duke of Buckingham seems never to tire of treading on the toes of the people over whom he rules. The latest complaint from Ootacamund is directed against his Grace's treatment of the Nilghiri Volunteer Corps. The Volunteers have elected a commanding officer and submitted his name to the Government, but have waited long without being favoured with notice of confirmation of the appointment. The local paper explains the delay as follows :—"The Nilghiri Volunteer Corps is composed chiefly of planters and the commandant elect is a planter. We have no reason to suppose that the Government will act against the wishes of the corps, but we do think there would have been less delay had the corps elected a member of M. C. S., (however unfitted for the post he might be.)" Our contemporary adds, with justifiable warmth :—We have for many years past urged the necessity for a Volunteer Corps on these hills, but little suspected that when man came forward and gave their time and money in the cause, Government would show lukewarmness, almost amounting to contempt, for the movement. Is it that the Madras Presidency is over-crowded with troops, or that the Madras Government does not appreciate the gratuitous services of the Volunteers? At home every encouragement has been accorded to Volunteers, and the movement has grown to be one of the finest institutions of the country,—an army of 240,000 effective men. What would be said at home if we told them of the little encouragement accorded to the Volunteers of these hills, and further stated the fact that we are surrounded by a race of superstitious natives, who possess fire-arms? We do not for a moment suggest that there is danger, but on the principle of keeping our powder "dry," we assert that 200 effective Volunteers with a supply of ammunition, is a "desideratum" for these hills, not to be despised by Government.

KING THEEBAW'S mission still remains at the Thayetmyo frontier, by the last accounts. A Rangoon correspondent writes :—The members themselves seem very happy there, and like the food they get, of which beef forms a part daily, better than the fare at Mandalay, where bullocks are not allowed to be slaughtered. Affairs in Mandalay continue much the same. The principal occupation of all classes now is gambling in the royal lotteries, and silk weaving, which for wear in Burma used to be a Mandalay speciality, has considerably declined, silk cloths rising in value in consequence.

A LETTER from the Bishop to the Archdeacon of Colombo has appeared in the *Colombo Diocesan Gazette*. The precise object of Bishop Copleston's journey to England is for consultation with certain English prelates. Nothing will be submitted to them for arbitration; he alone will be responsible for any decision arrived at. *Church Bells*, an English clerical paper, states that at the last meeting of the Church Missionary Society, the secretaries stated that the Bishop of Colombo was said to be about to visit this country, with a view to a discussion of the subjects between him and the committee. The committee directed that a telegram should be sent to Ceylon, giving instructions that, if the Bishop of Colombo should come to England, the Rev. J. Ireland Jones should come also, with as little delay as possible.

THE feeling prevalent amongst the Cachar planters is shown by the following extract from a letter of one of them to his agents in Calcutta :—

"What is the real state of affairs up here? Simply that the forces in the District, Military and Frontier Police are utterly inadequate for anything more than going through the usual routine of mounting guard, &c., in times of perfect quiet. A force of Frontier Police being sent off to Konoma, several of their duties, guarding the Treasury, and one or two stockades were made over to the 34th N. I., which regiment is itself so weak numerically that, after sending a few men to Pashicherra and Indrogram, in consequence of the raid on Balladhun, there were, I am informed, 80 men left to mount guard in and protect the civil station of Cachar. Had the Nagas been in any force, they might have looked up the Deputy Commissioner and Colonel of the 34th N. I. without let or hindrance. Five or six hundred well armed Nagas from Konoma could sweep Cachar from end to end and will do it too, one of these days, unless more determined steps are taken to make them respect the Sirkari Raj, which God knows they have little reason to do at present. What did the Frontier Police do when they arrived at Balladhun? Did they start off at once to track up the murderers and take swift and full vengeance? Not so; they squatted in the ruins. It was said :—"We will wait a week or so and then we shall hear where these people come from, and go and burn their Poongee." Why, the real culprits will be scattered all over the hills by that time. A few huts may be burnt. As it was the Lushai expedition we it is now, but that sort of work will never stop the Nagas; nothing but immediate reprisals without quarter will appeal to these savages. The raiders on Balladhun should have been followed up at once; they would likely have been found more or less drunk with Balladhun rum. Cachar should have a force, sufficient not only to guard the frontiers, but to follow up and punish promptly any raiders who might cross."

IT was very unkind of the Madras correspondent of the *Pioneer* to wire to that journal that the assembled Irishmen had decided to telegraph to the Mayor of *Berlin* for particulars of the distress in Ireland.

CEYLON has been visited by a man-of-war of the Austro-Hungarian navy, the Corvete Heligoland on its return from New South Wales, whether it had conveyed the Austro-Hungarian exhibits and Commissioners for the Sydney Exhibition.

DRAFTS FOR BURMA.—The drafts consisting of seven officers, 303 non-commissioned rank and file, four women and nine children, also four bheesties, under command of Captain Lefroy, 44th Foot, which arrived from England on the 18th January last, will proceed to join their corps (the Burma Field Force) at Himalaya leaving Madras on the 18th instant.—*Madras Mail.*

A LEVANTER.—The traditional use of the foretopsail in the paying of ones debts was illustrated with a vengence a few days ago in Allahabad by a ropedancer who has gone off to Madras *en route* for Colombo. We believe among those who were made victims by the hauling taut of the bowline were the band who discussed sweet music during the performances, while we hear of such things as house rent and restaurant bills.—*Indian Herald.*

CHINESE ECCENTRICITIES.—For some reason best known to themselves, the Chinese living in the vicinity of Bentinck Street [Calcutta], after keeping quiet as is their nature till about 12 o'clock, Monday night, suddenly disported themselves, in a manner which resulted in the greatest inconvenience to the whole neighbourhood round about them. They fired off volley after volley of crackers, incessantly varying the monotony with bombs, until daylight on Tuesday morning. Surely this would come under the category of nuisances, and, if so, where were the Police? We have had complaints on this subject from several people.—*Englishman.*

ECCLESIASTICAL TITLES.—The recent discussion in Madras about ecclesiastical titles calls to mind a good story told in connection with a dignitary if the church. A certain Archdeacon had married rather late in life a lady some years his senior, and was at any rate entitled to be called "venerable," if age counts for anything. On one occasion the Archdeacon and his wife were amongst those invited to a dinner party, and the host's butler had been carefully instructed beforehand in the names and styles of all the guests with a view to announcing them correctly, when he opened the drawing-room door. Whether this man was a novice, or whether he was only a greengrocer who did occasional duty as butler, or whether he was an advocate of woman's rights is not known, but he certainly gave the Archdeacon's wife her due, if not more,—for he pompously announced the worthy couple as "Harchdeacon Blank and the Venerable Mrs Blank!"—*Indian Church Gazette.*

ACTING DEPUTY COMMISSIONER OF POLICE.—Mr. H. G. Gell, who is appointed to act as Deputy Commissioner of Police in room of Mr. R. H. Vincent, who has proceeded to Europe on leave, arrived in Bombay yesterday, and will take up his new appointment to-day.

SUDDEN DEATH.—A Coroner's inquest was held yesterday at the *morgue*, Cammateepoors, on view of the body of Baboo Cannoo, a labourer, who, on the evening previous, suddenly fell down on the public road and expired. The verdict was—That the death of the deceased was caused by heart disease.

DEATH AT THE GOVERNMENT WORKHOUSE.—A Coroner's inquest was held yesterday at the Government Workhouse, on view of the body of Charles Wilson, aged 24 years, who died from phtesis, from which complaint he had been suffering since September last. A verdict to the above effect was recorded.

THEFT OF CURRENCY NOTES.—Poonsey Gunnesh was yesterday convicted by Mr. Nana Morojee of stealing five currency notes of the value of Rs. 60, belonging to Muckoom Vankoo. He was sentenced to two months' rigorous imprisonment and a fine of Rs. 40, or in default a further term of two months' rigorous imprisonment.

GAMBLERS.—Bhimee, woman, and five Mahomedans were yesterday charged, at the instance of Mr. Inspector Millard, before Mr. W. Webb, with being found gaming in a common gaming house at 2nd Goobarwada Lane. They were found guilty. Three of the prisoners were fined Rs. 15 each and the rest Rs. 3 each.—Govind Rowjee and three others were also yesterday charged with a similar offence before Mr. C. P. Cooper at the instance of Mr. Inspector Mahon. On conviction they were each fined Rs. 10.

FIRE AT THAKOORDWAR.—A fire broke out yesterday forenoon in a small chawl occupied by a number of Ghatee labourers, and situated at the back of the Thakoordwar Temple. The fire spread rapidly and destroyed the whole building in a short time. The manuals and the fire brigade steam engines were soon on the spot, and with a copious supply of water the fire was kept under control and confined to the one building and completely extinguished within an hour after the alarm was raised. The origin of the fire is attributed to one of the occupants neglecting the fire at his fire-place. The damage is roughly estimated at Rs. 800.

BOMBAY TOWN COUNCIL.

AT the weekly meeting of the Council held yesterday at the Municipal offices, there were present :—Dr. Thomas Blaney, Chairman; Sir Frank Souter, Kt., C.S.I., Mr. T. B. Kirkham, Mr. Charles Douglas, Messrs. Dosabhoy Framjee, Nanabhoy Byramjee Jeejeebhoy, Rahimtoola M. Sayani, Nowrojee Furdonjee, Muncherjee N. Banajee, Raghunath N. Khote, and Fazulbhoy C. Gangjee.

NEW ROAD FROM MAZAGON BRIDGE TO LAWRENCE DE LIMA STREET.

The Council was asked to recommend the Corporation to sanction a grant from the surplus cash balance of Rs. 25,000 for the construction of a road from Mazagon Bridge to Lawrence DeLima Street, and for the continuation of the Frere Road to Lawrence DeLima Street. The land for such improvement will be provided by Government.

Mr. Dosabhoy Framjee was of opinion that the road should not be constructed now, and that the sum of Rs. 25,000 asked for should be held over until the next Budget.

The Chairman said that the convenience of the public must be looked to in this matter, and hence he had given notice of motion regarding it.

Mr. Banajee said that the road had been too long delayed and that he had brought forward the subject before the Corporation sometime back. By having the road constructed now a saving of Rs. 6,000 would be effected.

Mr. Kirkham said the road would not only be a great convenience, but there was to be taken into consideration the saving promised by having it constructed at once.

Sir Frank Souter concurred in this.

Mr. Nowrojee Furdoonjee was of the same opinion as Mr. Dosabhoy Framjee.

It was proposed by Mr. Dosabhoy Framjee, and seconded by Mr. Nanabhoy B. Jeejeebhoy, "That the Town Council recognises the necessity of building the road from Mazagon Bridge to Lawrence DeLima Street, and the continuance of the Frere Road to Lawrence DeLima Street, and the Municipal Commissioner be requested to include the estimate of Rs. 25,000 in the next year's budget."

On being put to the vote this motion was lost.

The following resolution, proposed by the Chairman, and seconded by Mr. Kirkham, was carried :—"That the Corporation be recommended to sanction a grant of Rs. 25,000 from surplus cash balance for the construction of a road from Mazagon Bridge to Lawrence DeLima Street and for the construction of the Frere Road to Lawrence DeLima Street. The land for such improvement will be provided by Government free of charge."

The remainder of the business disposed of was of a purely routine character.

APPLICATION FOR A WRIT OF "HABEAS CORPUS."

YESTERDAY at the High Court, an application was made by the Hon'ble Mr. Latham before Mr. Justice Kemball for a rule *nisi* under clause C of section 148 of the High Court Criminal Procedure Code, calling upon Jaitha Varis, a Bhattia merchant, to appear in court to-morrow to show cause why he should not deliver to Goverdhandas Hurrydas, also a Bhattia merchant, his daughter aged about 11 years and 5 months, and calling upon him to produce the girl in court that day. The application was based on the affidavit of Goverdhandas Hurrydas (the father of the girl) which stated that he was married to Soondermow, the daughter of Jaitha Varis, about the year 1859; that the girl was born about the year 1868, and that shortly after the birth of the girl her mother died. The affidavit then stated that the girl for the most part lived with Jaitha Varis (her maternal grandfather) with the father's consent; but that the father having betrothed her lately, was desirous of celebrating her marriage on Friday next, and that the grandfather, Jaitha Varis, declined to deliver up the girl. It was also alleged that Jaitha Varis had in his possession some jewels belonging to the girl's father, which he had declined to restore to him. The learned judge ordered a rule *nisi* to issue, returnable to-morrow.

FIRST CRIMINAL SESSIONS.

SEVENTH DAY, TUESDAY, FEBRUARY 17TH.

(Before the Hon'ble Mr. Justice MARRIOTT.)

THE trial of the following case was continued before his Lordship and a common jury :—

THEFT OF ORNAMENTS, CURRENCY NOTES, &c.

George William Scott and Samuel Scott, Indo-Britons, and Ganga, woman, were charged with theft of ornaments, currency notes, and other articles, the property of Myna, woman, a milk-seller. Mr. Jardine, instructed by the Public Prosecutor, appeared for the prosecution; and Mr. Gill, instructed by Messrs. Jefferson, Bhaishanker, and Dinshaw, for the defence.

Further evidence was called for the prosecution, after which Mr. Gill addressed the jury on behalf of the prisoners. His Lordship summed up the case from 5 p.m. to 7 p.m., at which latter hour the jury retired to consider their verdict. Returning into court in a quarter of an hour, the jury returned a verdict against all the three prisoners of guilty of receiving stolen property and assisting in the disposal of stolen property,—recommending the second prisoner to mercy by reason of his youth. His Lordship sentenced the first prisoner to rigorous imprisonment for three years, the second for one year, and the third for two years.

There being no other case for trial, the Criminal Sessions were dissolved at 7-30 p.m.

THE INSOLVENCY OF MESSRS. FINLAY, SCOTT & CO.

THE hearing of this case was continued before Mr. Justice Bayley yesterday, being the seventeenth day of the enquiry. Mr. Pigot and Mr. Russell, instructed by Messrs. Prescot and Winter, appeared for the opposing creditors, the Bank of Bengal; and Mr. Macpherson and Mr. Lang, instructed by Messrs. Craigie, Lynch, and Owen, for the insolvents.

Mr. Pigot, in continuing his address on behalf of the opposing creditors, said the letter of the 31st October 1877 was the keystone of the structure the opposing creditors wished to rear. It was the agreement made between Mr. Moultrie and Mr. Lang. In altering the essentials of the arrangement made between them, it was plainly Mr. Lange's duty to communicate to Mr. Moultrie the diversion he had made; and that was the view Mr. Moultrie contended for. Commenting upon portions of Mr. Lang's evidence, the learned counsel said it was characterised by a subtleness of language when dealing with the statements made by Mr. Arbuthnot with regard to the understanding that the bills were to be accompanied by railway receipts. The course of dealing at the Nagpore branch was certainly to send down the early bills with rail

BEST QUALITY TRIPLE ELECTRO-PLATE.
MANUFACTURED TO THE SPECIAL ORDER OF
C. MARCKS AND COMPANY,

BOMBAY, 4, Hummum Street. POONA, 1, East Street.

WE long hesitated before undertaking this important branch of business, as we are aware of the immense amount of inferior articles manufactured and sold as the best quality (Electro-plate having so many qualities) by unscrupulous traders and eventually giving no satisfaction to purchasers.
After mature deliberation we have had a large quantity made expressly for us by a leading firm, and as our goods are triple-plated (i. e., have undergone the silvering process THREE TIMES, thereby ensuring a heavy coating of PURE SILVER on superior hard white metal), we can guarantee them to stand ordinary usage for twenty years.
